Simple Steps to Use BestBill Software

Step 1: Download & Install BestBill

To start using BestBill, download and install it on your computer.

Visit the BestBill Website

1. Go to the official BestBill website.
2. Download the latest setup file (.exe for Windows).

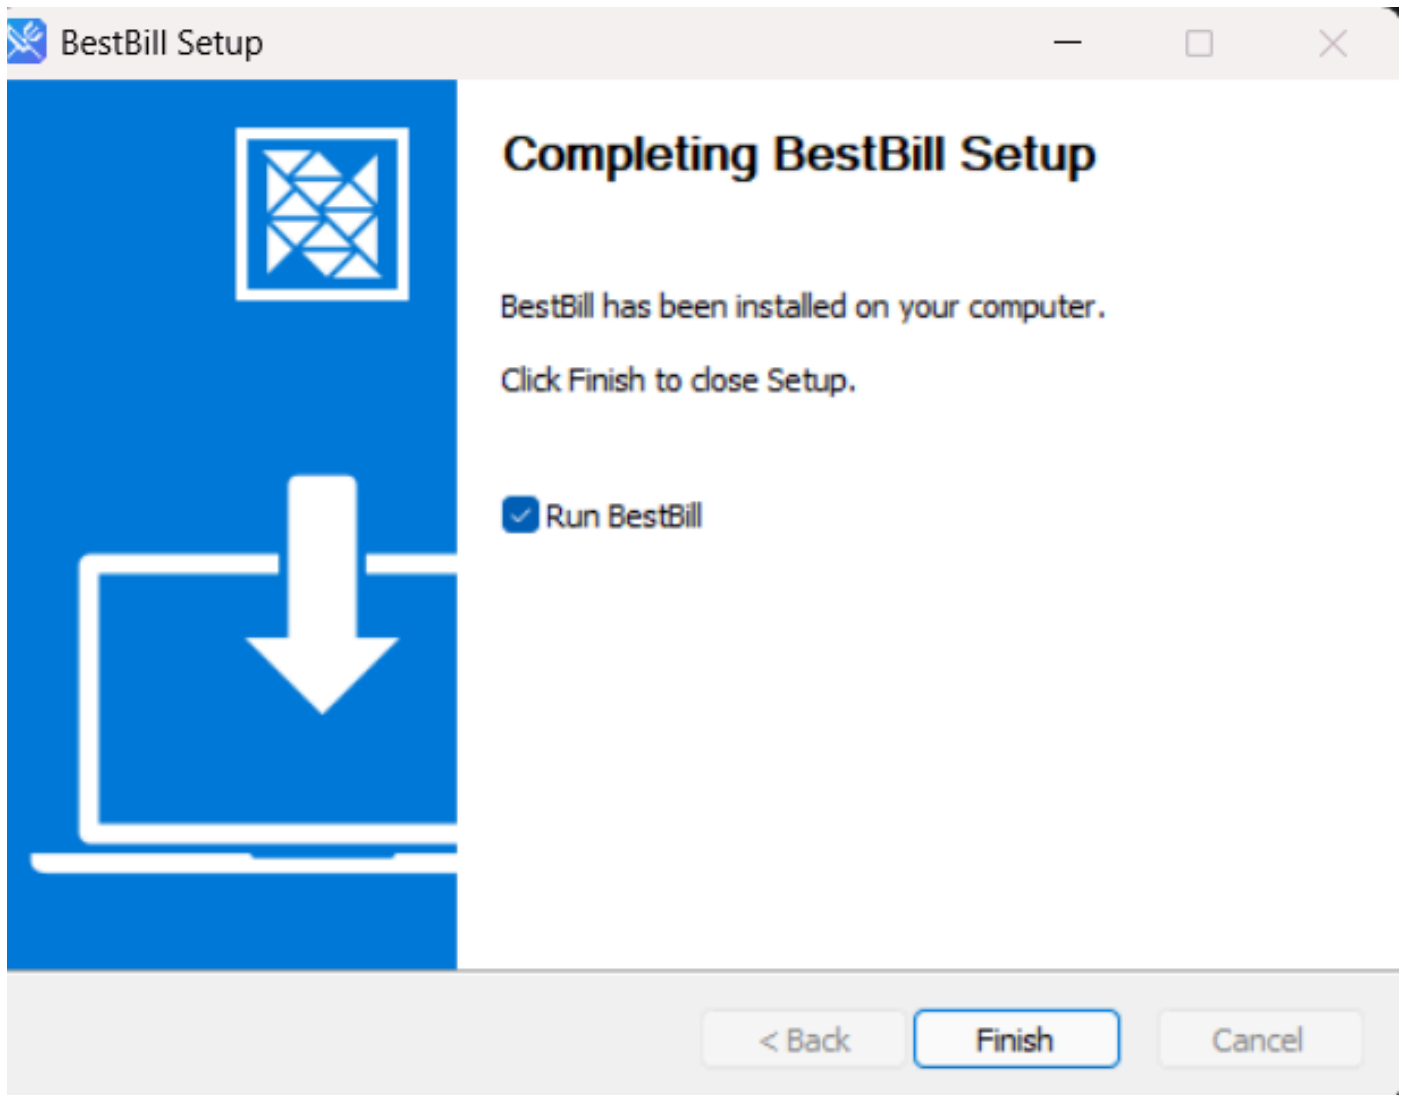

Locate and Run the Setup File

1. Find the setup file in your Downloads folder.
2. Double-click to start installation.

Follow the Installation Instructions

1. Follow on-screen instructions, clicking "Next" to continue.
2. Choose an installation location or use the default.
3. Click "Install" and wait.
4. Click "Finish" to launch BestBill.

You'll have BestBill installed and ready to use quickly!

Step 2: Register Your Hotel

To start with BestBill, follow these steps:

Open BestBill

- Install and open the BestBill app on your device.

Navigate to Registration

- On the Login page, click **“Register Here”** to access the form.

Enter Hotel Details

- Provide your hotel’s name, address, contact info, and other details.

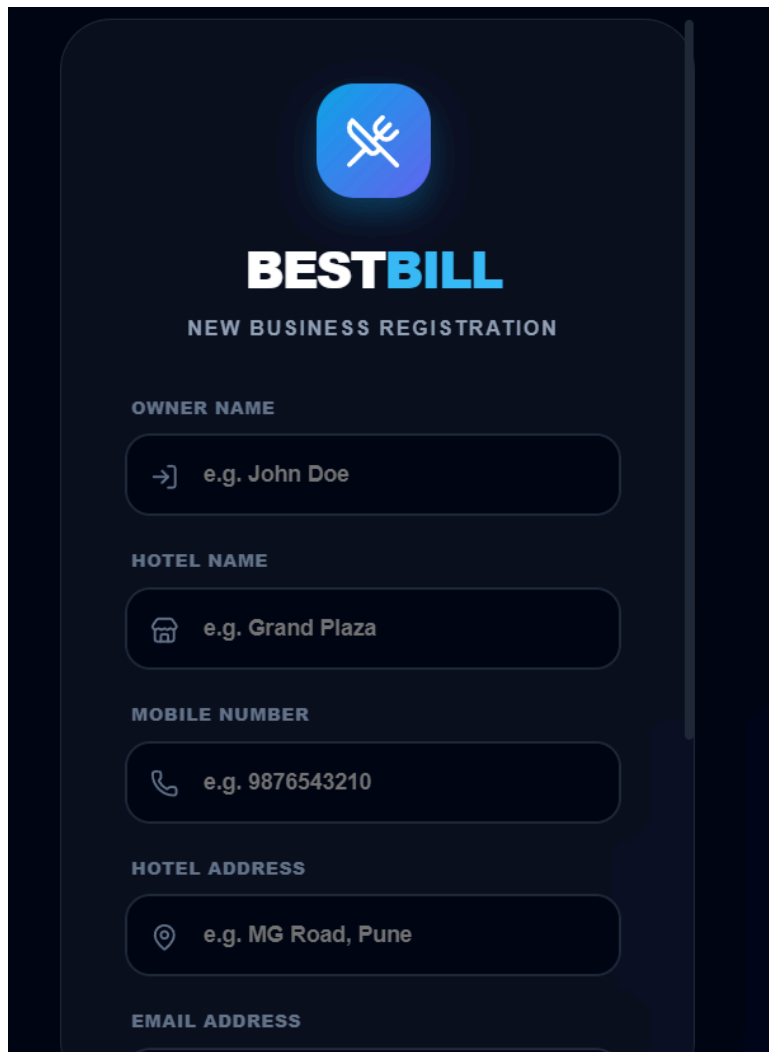

Create Your Account

- Choose a secure username and password. Enter a valid email for verification.

Complete Registration

- Click **“Register”** to finish.

✓ Your hotel is now registered with BestBill. Start managing your bookings!

A screenshot of a mobile application interface for 'BESTBILL'. At the top is a blue square logo with a white crossed fork and knife icon. Below the logo is the text 'BESTBILL' in bold, with 'BEST' in white and 'BILL' in blue. Underneath is 'NEW BUSINESS REGISTRATION' in white. The form has five sections, each with a label and a rounded rectangular input field. 1. 'OWNER NAME' with a right arrow icon and placeholder 'e.g. John Doe'. 2. 'HOTEL NAME' with a building icon and placeholder 'e.g. Grand Plaza'. 3. 'MOBILE NUMBER' with a phone icon and placeholder 'e.g. 9876543210'. 4. 'HOTEL ADDRESS' with a location pin icon and placeholder 'e.g. MG Road, Pune'. 5. 'EMAIL ADDRESS' with no icon and an empty field. The background is dark blue.

Step 3: Designing Your Restaurant Seating Layout

Follow these steps to set up tables and sections for your restaurant's seating layout, ensuring smooth operations for staff and customers.

Accessing the Dashboard

Log into your restaurant management system to access the Dashboard, where you can manage operations.

Creating Tables

- 1. Click "Create Table"**
Begin organizing your seating.
- 2. Select Section/Location**
Choose a section for tables, such as:
 - Main Hall
 - Family Section
 - Floor 1
- 3. Enter Number of Tables**
Input the number of tables for each section to manage reservations efficiently.
- 4. Repeat for All Sections**
Ensure a clear layout for every area.

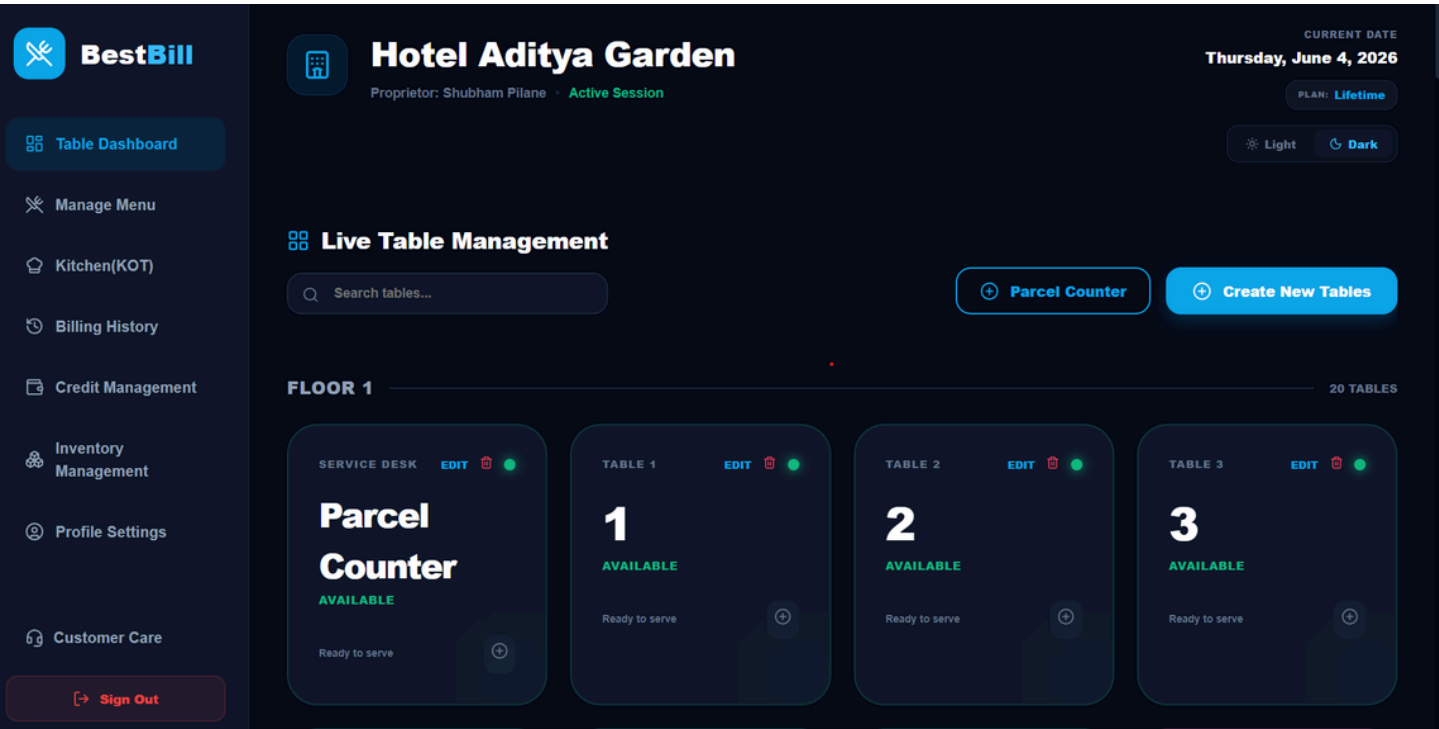

Adding a Parcel Counter

Include a Parcel Counter for takeaway orders to enhance efficiency.

Example Layout

- Floor 1 – 5 Tables
- Main Hall – 7 Tables
- Family Section – 10 Tables
- Parcel Counter – 1

✔ Your seating layout is now ready for efficient operations and a smooth dining experience.

Step 4: Add Menu Categories & Items

1. Go to the **Manage Menu** section.
2. Create your menu categories, such as **Starters**, **Main Course**, **Beverages**, and **Desserts**.
3. Add menu items along with their prices.
4. Assign each item to the appropriate category.
5. Save your changes.

💡 **Quick Setup:** Send a photo of your menu card via WhatsApp to 9822401802 for fast setup assistance.

✅ Your menu is now ready for billing and order management

The screenshot displays a user interface for managing a menu. On the left, a sidebar titled 'Groups' contains a 'NEW CATEGORY TITLE' input field with a plus icon, an '+ Add' button, and a list of 'ACTIVE GROUPS' including BIRYANI, CHICKEN MAIN COURSE, CHICKEN RICE / NOODLES, CHICKEN SPECIAL, CHICKEN/MUTTON SPECIAL KABAB, COLD BEVERAGES & SWEETS, and EGG SPECIAL. Each group has edit and delete icons. The main area is titled 'Add To Live Menu' and features an 'Import CSV' button. It includes input fields for 'DISH NAME', 'PRICE (₹)', 'CATEGORY' (with a dropdown menu currently showing 'Choose Alignment'), and 'DESCRIPTION'. A large green '+ Publish To Menu' button is at the bottom of this section. Below this, the 'CURRENT MENU CATALOG' is shown with a search bar. It lists items like 'ACHARI PANEER TIKKA' under 'VEG STARTERS' with a price of ₹380, and another 'ACHARI PANEER TIKKA' with a price of ₹280. A third item, 'EGG THALI', is partially visible with a price of ₹200. Each item entry includes edit and delete icons.

Step 5: Settle Orders & Manage Credit

When finalizing a Table or Parcel order, choose a payment method:

- Cash
- Online
- Credit

If you select **Credit**, the order is saved in the Credit Management section. You can view and settle outstanding credit payments anytime from the Credit Management page.

✓ Effortlessly track and manage all pending customer payments.

HOTEL ADITYA
GARDEN
Nira , Pimpri-Khurd Tal-Purandar , Dist-Pune
,Maharashtra, 412102

TABLE NO: 1

SETTLE WITHOUT PRINT

 Print

Step 6: Configure Billing Printer

1. Go to **Profile Settings**.

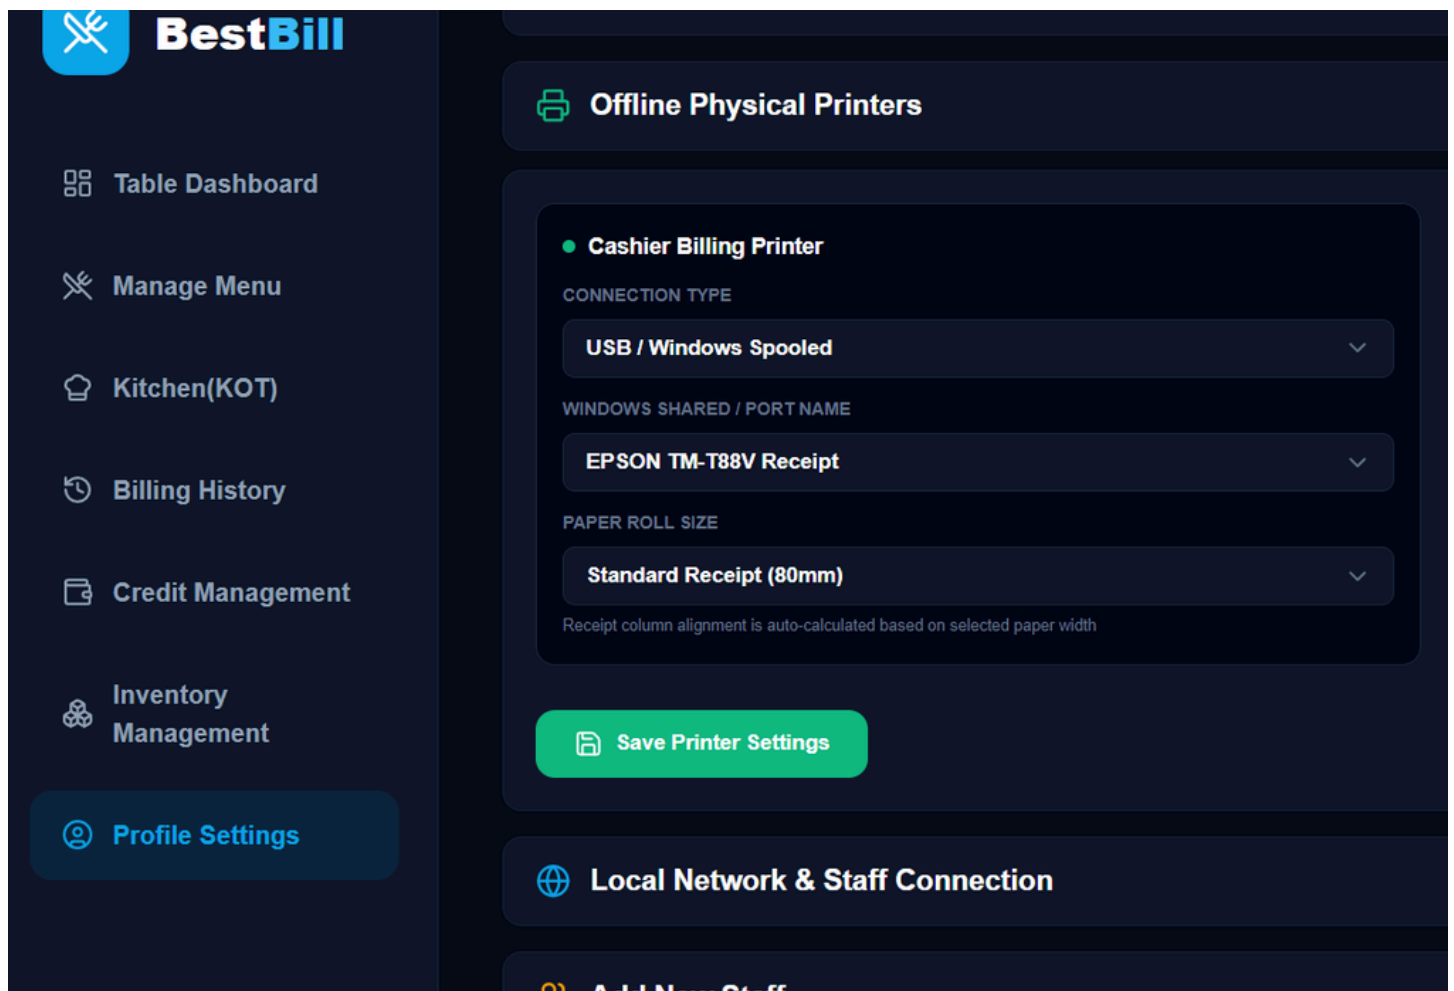

2. Open the **Offline Physical Printer** section.

3. Under **Cashier Billing Printer**, select your connected printer from the list.

4. Save the settings.

✓

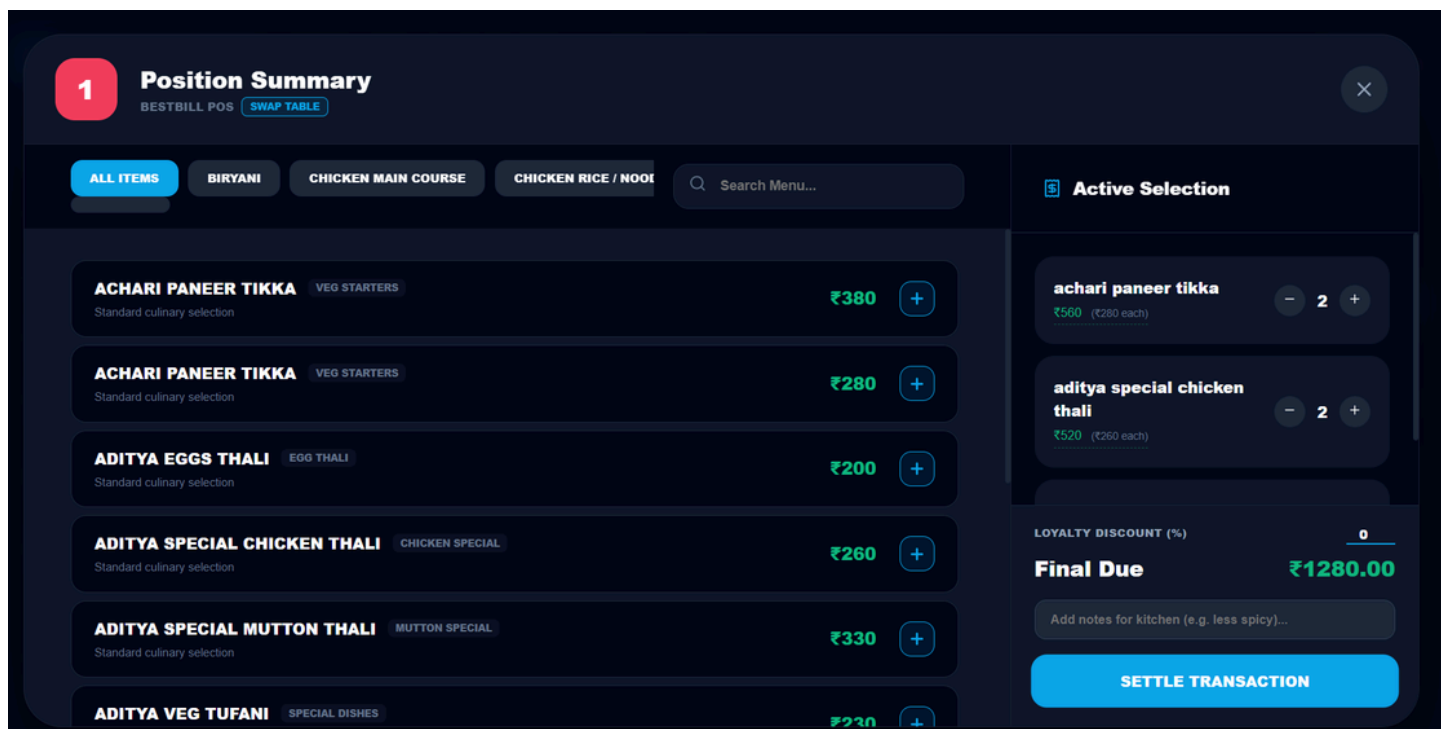

Your billing printer is now set up and ready to print bills directly from BestBill.

Step 7: Take Orders & Generate Bills

- Select any table and add menu items as needed.
- Take orders for multiple tables at once.
- When customers are ready to pay, open the table and click **Settle Transaction**.
- Choose the payment method and click **Print Bill**.

The bill will print automatically, and the table will be cleared for the next customer.
